

Global Health Initiative

Medicinal Cannabis Prescriber Directory Application Form

The Global Health Initiative (GHI) is a not-for-profit organization in the US and Australia. It is focused on medicinal cannabis education for healthcare practitioners and the public. It also contributes to research and provides consultancy services. See our website: www.globalhealthinitiative.life for more information.

As part of our service to the public, we have started a Medicinal Cannabis Prescriber Directory so that potential patients and other practitioners can locate a doctor who is prescribing medicinal cannabis in their state.

If you are a registered medical practitioner in Australia and would like to have your name and practice details included in our Medicinal Cannabis Prescriber Directory, please fill in the fields below, sign and scan to kylie.obrien@ghi.life. Please note that your details cannot be included in the Directory if the form is not signed.
